

SystemHandle::operator=

```
graph LR; A[SystemHandle::operator=] --> B[SystemBody::setName]; A --> C[SystemBody::setValue];
```

The diagram illustrates a relationship between a class method and two other methods. On the left, a grey rectangular box contains the text 'SystemHandle::operator='. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing 'SystemBody::setName'. The bottom arrow points to another white rectangular box containing 'SystemBody::setValue'. All boxes have a thin black border.

SystemBody::setName

SystemBody::setValue
