

ModelHandle::createSystem

ModelHandle::createSystem

ModelBody::createSystem

```
graph LR; A[ModelHandle::createSystem] --> C[ModelBody::createSystem]; B[ModelHandle::createSystem] --> C;
```

The diagram illustrates a mapping or delegation of the `createSystem` method. On the left, there are two separate boxes, each labeled `ModelHandle::createSystem`. Blue arrows point from the right side of each of these boxes to a single box on the right labeled `ModelBody::createSystem`. The `ModelBody::createSystem` box is shaded gray, while the `ModelHandle::createSystem` boxes are white with black borders.
