

ComplexFlow::executeFunction

```
graph LR; A[ComplexFlow::executeFunction] --> B[FlowBody::getBegin]; A --> C[System::getValue];
```

The diagram illustrates a function call sequence. A central box labeled 'ComplexFlow::executeFunction' has two outgoing arrows. The top arrow points to a box labeled 'FlowBody::getBegin', and the bottom arrow points to a box labeled 'System::getValue'.

FlowBody::getBegin

System::getValue
